## ABOUT THE COMPANY

IC Solution (ICS) is a digital service provider that aims to provide software, designing and marketing solutions to individuals and businesses. At ICS, we believe that service and quality is the key to success

We provide all kinds of technological and designing solutions from Billing Software to Web Designs or any custom demand that you may have. Experience the service like none other!

Some of our services include:

Development - We develop responsive, functional and super-fast websites. We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small view-port and slow internet connection.

Mobile Application - We offer a wide range of professional Android, iOS & Hybrid app development services for our global clients, from a start up to a large enterprise.

Design - We offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers.

Consultancy - We are here to provide you with expert advice on your design and development requirement.

Videos - We create a polished professional video that impresses your audience.

## OVERVIEW OF THE PROJECT

**Project Name:** Website for Leaf Now

**Team Members:** Tanvika Nagavi

Salma Banu S

Manjushree BL

Monish BM

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS and JavaScript. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS. The database used is MySQL.

## **ABOUT LEAF NOW**

Ever since industrialization started the care for plants has made it to our least priority list, Even though mankind requires plants to balance the food chain that he's a part of, but the plant enthusiasts are everywhere, be it big metropolitan cities or rural areas, so we aim to bring in a platform that can connect these plant/nature enthusiasts and help them exchange/sell them plants or donate seeds/plants as part of the green initiative that we started 2 years back.

## **TOOLS USED**

### **Software Requirements**

- Editor: Visual Studio Code 2019.
- Browser: Google Chrome or Microsoft Edge of latest version.
- Front End: HTML, CSS, JS
- Back End: SQL, PHP
- Operating System: Linux 7.1 or Windows XP/7/8/10 OS or Mac OS

### **Hardware Requirements**

- Pentium 200-MHz computer with a minimum of 64 MB of RAM (128 MB of RAM recommended).
- Monitor with a refresh rate of at least 40Hz for a smooth GUI experience (optional).

<h1>Benefits of Growing Plants From Seeds!</h1>
<p>Every year, there is a limitless amount of things that you
can do in and around the
garden. One great way of showing children the process of
growing plants, is to grow
them from seed. And whilst this will naturally take longer than
popping down to the local
garden centre and buying them already grown, <br>it will teach
your little ones some very important skills</p>

        <h3>Trees produces oxygen that is life line of all living beings. In the hot
summer we usually plan trips in the hilly areas. But if the rate of cutting Trees
remains same then we don't have enough Trees to plan a trip, seasonal raining
and amount of fresh oxygen will no longer be available. Trees helps to clean the
air, soil and water, making the earth a beautiful livable place. Living close to
trees makes us healthier and happier. Its time to SAVE Trees, protect forests and
spread awareness. If you want to save trees, you can help by protecting those that
grow around your home, and planting more Trees. Reduce the use of paper
products, too. According to our little understanding we have found few ways to
protect Trees, you can also follow them ,motivate your friends and family
members to join hands together to save our beautiful earth or you can join an
organization working to save Tress around your home town.</h3>
